

## LEAD-LINED DRYWALL

### Securing each medical facility one wall at a time.

More X-ray rooms in hospitals, dental offices, and chiropractic offices are laminated with a single, uniform sheet of defect-free lead from NELCO.

What will you need to determine appropriate drywall size, lead thickness, and wall layout to meet all site requirements? You'll need the advice of NELCO experts. Several drywall sizes and lead thicknesses are provided to accommodate various customer needs and physics requirements. Every detail is attended to with lead batten strips to shield seams, lead discs to cover screws, and lead to line electrical outlets, light switches, and more.

## FEATURES & HIGHLIGHTS

---
